

GETON CONTAINERS

20kW Folding Container for Field Operations Agreement

Overview

How does a Meox 20ft mobile solar container work?

Meox 20ft mobile solar container stores foldable solar panels, providing a convenient way to generate green electricity on the go. When needed, the container is transported to its destination, and the foldable panels are easily unfolded using a rail system that slides them out from the container.

What is a solarcontainer?

The Solarcontainer is a photovoltaic power plant that was specially developed as a mobile power generator with collapsible PV modules as a mobile solar system, a grid-independent solution represents. Solar panels lay flat on the ground. This position ensures maximum energy harvest. Panels lay flat on the ground.

How many households can a solar Container Supply?

Based on an average power consumption of a 4-person household of 4000 kWh per year and a location in Southern Germany, the solar container can supply approx. 32 households with climate-friendly electricity. At a location in Southern Europe it can even be up to 50 households due to the high solar radiation.

How many installers does a solarcontainer need?

At least 3-4 installers and 1 crane operator are needed to put the Solarcontainer into operation within one day. How many households can one Solarcontainer supply with electricity?

20kW Folding Container for Field Operations Agreement

[20kw folding container manufacturer](#)

Explore varied living solutions through 20kw folding container manufacturer. These innovative structures provide both durability and fast installation alongside customizable designs for ...
