

3 5 kw solar inverter factory in Bhutan

Overview

What is a 3.5kW MPPT solar inverter?

NOTE 1: 3.5KW MPPT Solar Inverter SolarPro Series is a wide voltage solar inverter. Solar panel input voltage must be higher than 120V so that can start up the solar inverter to work. NOTE 2: 3.5KW MPPT Solar Inverter SolarPro Series supports the WIFI function, but need to buy the WIFI module connect to APP so that can monitor.

What is an MPPT solar inverter?

This 3.5KW 24V MPPT Solar Inverter SolarPro Series is a multi-function solar inverter/solar charger, combining functions of inverter, MPPT solar charger and battery charger to offer uninterruptible power support.

Which solar inverter is best for off-grid system?

It is perfect backup power supply for off-grid system like household appliances, power tools, industrial equipment, and electronic audio and video equipment. NOTE 1: 3.5KW MPPT Solar Inverter SolarPro Series is a wide voltage solar inverter. Solar panel input voltage must be higher than 120V so that can start up the solar inverter to work.

How does a solar inverter work?

It works as a solar charger and battery charger. Equipped with a multifunctional LCD display that records operating data allowing continuous monitoring and management of the entire system. The inverter operates in off-grid mode. Does not support BMS. It has a built-in 100A MPPT charge controller. Possibility to connect an additional wi-fi module.
