

# **Amsterdam Solar Container Single Phase**

## Overview

---

When will offshore solar floaters arrive in Amsterdam?

The first offshore solar floaters arrived in the Port of Amsterdam in the week of 14 October 2024, straight from the Oceans of Energy factory. These modular, prefabricated units form part of the Hollandse Kust Noord offshore solar farm that will be installed in 2025.

Why is Amsterdam launching a floating solar farm?

The Port of Amsterdam has received the first floating solar units for an offshore solar farm. These solar units will soon integrate with existing wind farms, forming one of the world's largest offshore solar projects and highlighting Amsterdam's leadership in sustainable energy.

Where are the first solar floaters installed in Hollandse KUST Noord?

Port of Amsterdam welcomes first solar floaters for installation in Hollandse Kust Noord OWF Oceans of Energy celebrated a milestone in their offshore floating solar project last week when the first solar floaters arrived in the Port of Amsterdam.

Will a floating solar farm be installed in the Hollandse KUST Noord wind farm?

They will form part of the solar farm that will be installed in the Hollandse Kust Noord Offshore Wind Farm in 2025. Oceans of Energy was contracted by CrossWind, owner of the Hollandse Kust Noord Offshore Wind Farm, last year to install and run the floating solar farm in the wind farm.
