

# **BESS a London energy storage container company**

## Overview

---

What is a 5MWh Bess container?

The 5MWh BESS containers, developed with HiTHIUM's 314Ah prismatic cells, exemplify the company's engineering-first approach to energy storage: About HiTHIUM.

What is Bess & how does it work?

s optimises space and infrastructure. The core components of BESS include the batteries for storing energy, a system that monitors and manages them to ensure they operate safely and efficiently, and equipment that converts electricity for use by the grid. Together, these components work seamlessly to integrate.

Where is Bess based?

Typically working with local development partners, the business is active in the UK, Australia, Italy, Germany, and Sweden. It has more than 500MWh of operating BESS projects, with over 1GWh under construction and a development pipeline of about 7GW.

Is BW ESS energising its 100MW / 331mwh battery storage system?

100MW / 331MWh battery storage system is now operational, forming a key part of BW ESS' UK investment programme. London, 18th February 2025 — BW ESS has announced the energisation of its innovative 100MW / 331MWh battery energy storage system (BESS) near Bramley, Hampshire.
