

Barbados 5g solar container communication station distributed power generation

Overview

What is Digicel doing in Barbados?

(LE) Digicel Barbados has announced an ambitious dual drive to revolutionise the island's mobile connectivity and sustainability, unveiling a nationwide rollout of solar-powered mobile sites alongside the upgrade of its mobile broadband network to 5G+.

What does Digicel's 5G+ network mean for Barbadians?

Abrahams also announced the launch of Digicel's 5G+ network, promising "lightning-fast speeds, ultra-low latency and the ability to connect more devices than ever before." She said the new network would allow Barbadians — from small business owners to students and developers — to take full advantage of next-generation digital services.

Why is Caban energy rethinking its solar power plants?

Alexandra Rasch, chief executive and founder of Caban Energy, explained that each revamped site would generate solar power onsite, support daytime loads, and store excess energy in battery systems for uninterrupted supply. "That allows us to have higher resiliency, lower costs, and most importantly, modernisation of the sites," Rasch said.
