

GETON CONTAINERS

Battery panel charging container base station

Overview

What is a containerized battery energy storage system?

Our's Containerized Battery Energy Storage Systems (BESS) offer a streamlined, modular approach to energy storage. Packaged in ISO-certified containers, our Containerized BESS are quickly deployable, reducing installation time and minimizing disruption.

What is a containerized battery setup?

Whether for peak shaving, load shifting, or backup power, containerized battery setups deliver the scale and flexibility required for industrial and commercial energy needs. Advanced thermal management and safety systems ensure reliable performance in diverse settings.

What is CIMC Yangzhou base battery swapping station/new energy vehicle containerized power station?

CIMC Yangzhou Base Battery Swapping Station/New Energy Vehicle Containerized Power Station consists of several container modules, suitable with various brand new energy cars and battery systems, integrated with battery storage, battery charging, car moving, and internet communication system.

What is a containerised energy storage system (BESS)?

Our containerised energy storage system (BESS) is the perfect solution for large-scale energy storage projects. The energy storage containers can be used in the integration of various storage technologies and for different purposes. For installation manual, technical datasheet, inverter adjustment/testing or configuration, please send us inquiry.
