

Bess system for solar factory in Italy

Overview

Does Engie have a Bess project in Italy?

Engie already has 50MW of BESS capacity in Italy. Image: Engie. Utility and power firm Engie has acquired two BESS projects from Recurrent Energy in Italy, totalling 200MW of capacity. The two battery energy storage system (BESS) projects are both in Latiano in the southern region of Puglia, and are scheduled to begin construction in 2028.

What is a Bess project in Italy?

54.4 MW BESS in Santeramo in Colle, Apulia – awarded to Jupiter Srl, this project adds crucial storage capacity in one of Italy’s sunniest regions, rich in solar PV resources. 50 MW “Stornara” BESS in Foggia, Apulia – developed by Atlas Storage 5 Srl, the project reinforces the southern grid’s capacity to absorb excess renewable production.

Are battery energy storage systems needed in Italy?

Therefore, battery energy storage systems (BESS) are needed in Italy. The Italian market for BESS is growing rapidly and currently amounts to 2.3 GW but it almost exclusively consists of residential scale systems, associated with small scale solar plants, having an average capacity of less than 20 kWh.

Where is recurrent energy based in Italy?

The two battery energy storage system (BESS) projects are both in Latiano in the southern region of Puglia, and are scheduled to begin construction in 2028. Recurrent Energy is the project development arm of Canadian Solar, a major manufacturer of PV modules and BESS. Recurrent claims to be one of the largest renewables developers in Italy.
