

# **Boston Volta Energy Storage Integration Project**

## Overview

---

What does volta do?

Volta identifies and invests in battery and energy storage technology, including integration hardware and software, after performing deep diligence with the support of unparalleled global research institutions. Volta connects the most promising energy-storage innovators with select corporate investors, delivering returns for all.

Are Volta's portfolio companies hiring?

Volta's portfolio companies are hiring! Volta identifies and invests in battery and energy storage technology, including integration hardware and software, after performing deep diligence with the support of unparalleled global research institutions.

What is Volta's research contract with Argonne National Laboratory?

Through our research contract with Argonne National Laboratory, Volta performs research to validate technology from any source and solve technical challenges in otherwise valuable propositions. Argonne is the world leader in analyzing, inventing, developing, testing, and scaling of early-stage energy storage materials and systems.

What can esvolta do for You?

Explore the esVolta project portfolio to see how we're powering progress with cutting-edge energy storage solutions that enhance grid reliability, enable renewable integration, and drive long-term sustainability.
