

**GETON CONTAINERS**

# **Budapest Photovoltaic Energy Storage Container for Highways 2MW**

## Overview

---

How will Hungary's subsidy scheme affect battery energy storage?

The Hungary panel discussion at the event. Image: Solar Media. Hungary's subsidy scheme for energy storage will drive huge growth in battery energy storage system (BESS) deployments over the next few years.

Is Hungary a good market for energy storage subsidies?

Moderator Nikita Chandrashekhar, director at advisory Augusta & Co, said the scheme made Hungary an attractive market: "It is probably one of the most advanced subsidies schemes to bring energy storage forward. So from a revenue perspective, perhaps, unlike some other markets, the business case in Hungary seems pretty well developed.".

What is a polinovel 2mwh commercial energy storage system?

Max. Efficiency Get your Exclusive Offer! Polinovel 2MWH commercial energy storage system (ESS) is tailored for high-capacity power storage, ideal for large-scale renewable energy generation, PV self-consumption, off-grid applications, peak shaving, and emergency backup power.

How much power does Hungary have?

Hungary has 40MWh of grid-scale BESS online today but that will jump 3,400% to around 1,300MWh over the next few years thanks to opex and capex support from the government, said Pálma Szolnoki, senior research associate at trade body the Hungarian Battery Alliance.
