

Cebu Energy Valley Energy Storage Power Station in the Philippines

Overview

Where is Cebu energy power station located?

a Global Energy Monitor project. Cebu Energy power station is an operating power station of at least 246-megawatts (MW) in Toledo City, Cebu, Central Visayas, Philippines. Loading map. Unit-level coordinates (WGS 84): This ownership tree is part of the Global Energy Ownership Tracker, a project of Global Energy Monitor.

What is MGen's new energy storage facility in Cebu?

The Cebu facility is the second for MGEN after the planned 4,500 megawatt-hour energy storage project in Nueva Ecija, which broke ground in November 2024. / PNA MGEN's 49MW Battery Energy Storage System in Toledo, Cebu, targets full completion by 2027, boosting Visayas grid stability and clean energy transition.

What are the benefits of energy storage systems in the Philippines?

Configuring an energy storage system can alleviate grid congestion and improve grid stability. Smoother Energy Output: As of now, the Philippine power grid coverage rate is about 91%, and some areas still have problems with no power coverage, insufficient power supply, and unstable power.

How much does Cebu energy cost?

The 246 MW Cebu Energy power station consists of 3 x 82MW coal-fired generators. Units 1 & 2 began operating in 2010, and Unit 3 began operating in 2011. The station is operated by Cebu Energy Development Corporation. The project was estimated to cost P23 billion (approximately 500 million USD).
