

Containerized generator set landed

Overview

What is a containerized generator?

Less Maintenance The Containerized Series generator sets are designed for harsh weather and strict acoustical standards, utilizing a standard 40' high cube container equipped with an array of innovative features, allowing the system to operate reliably even in the hottest environments – validated at ambient temperatures of up to 55 degrees Celsius.

What is a 40 ft containerized generator set?

Originally launched for limited markets in 2021, the 40-ft containerized generator sets were engineered for easy transportation, simple installation and are stackable, offering up to 34% space utilization savings over traditional build designs.

Why should you choose Jenbacher containerized gas power generation solutions?

Jenbacher containerized gas power generation solutions offer a variety of benefits to our customers, thanks to distinctive product features: See for yourself.

Which genset containers are available?

All genset containers are also available with an option for -40°C and most variants can be upgraded for +45°C. A broad range of options, both mechanical and electrical, are available to ensure that our containers meet the project requirements. For example, we offer several heat recovery configurations and exhaust after treatment systems.
