

# **Cost of 100kW Foldable Containers at Australian Ports**

## Overview

---

How much does a 40ft container cost?

Drewry's World Container Index puts the global average price of shipping a 40ft container at \$1,859 (USD) for 13 November, 2025. Between now and the end of the year, container shipping prices will likely remain soft particularly if the current ceasefire between Israel and Palestine enables more shipping traffic to flow through the Suez canal.

How much does a 20 ft container cost?

A 20ft container in pristine condition may be priced between \$3,000 and \$5,000, while a 40ft container could range from \$5,500 to \$8,000. Pre-owned containers offer a considerable cost advantage, with prices ranging from \$1,500 for a standard 10ft model to approximately \$3,500 for a larger or better-condition 40ft container.

How much does a pre-owned container cost?

Pre-owned containers offer a considerable cost advantage, with prices ranging from \$1,500 for a standard 10ft model to approximately \$3,500 for a larger or better-condition 40ft container. Opting to rent a container can provide a budget-friendly answer for short-term requirements.

What does the ACCC report say about container freight?

The report reviewed developments in the container freight supply chain in 2023-24 and includes a detailed examination of landside port charges including charges at empty container parks. The ACCC used its compulsory information-gathering powers to require stevedores to provide information and documents spanning a 7-year period.
