

# **Customized manufacturer of power storage vehicles in Gothenburg Sweden**

## Overview

---

How is Gothenburg shaping the new battery industry?

In Gothenburg we are shaping the new battery industry. In the coming years Gothenburg and West Sweden will have in place two battery gigafactories, with major investments being made by public and private actors, including Volvo Cars and the Volvo Group. The region is set to become an important hub for both battery development and production.

Where is Gothenburg's first battery Gigafactory?

and Gothenburg's first battery gigafactory. NOVO Energy, the joint venture between Northvolt and Volvo Cars, celebrated the start of construction for its highly anticipated battery factory in Torslanda, Gothenburg.

Why is Volvo Cars building a new plant in Sweden?

The Swedish location of the plant, which will be built in Torslanda, Gothenburg offers benefits in terms of a direct route into Volvo Cars' largest car plant, access to infrastructure, a strong pipeline of renewable energy supply and relevant job competences, as well as its proximity to both Volvo Cars' and Northvolt's R&D units.

What is the Swedish electromobility centre?

Together with industry partners it carries out leading research on, for example, battery materials, energy storage and battery manufacturing. It also hosts the Swedish Electromobility Centre, a national centre of excellence for hybrid and electric vehicle and charging technology.
