

Dianlian 5g base station centralized procurement

Overview

Will China build a 5G base station next year?

Technicians from China Mobile check a 5G base station in Tongling, Anhui province. [Photo by Guo Shining/For China Daily] China aims to build over 4.5 million 5G base stations next year and give more policy as well as financial support to foster industries that can define the next decade, the country's top industry regulator said on Friday.

Which telco will supply 5G base stations in 2023 & 2024?

Huawei Technologies has secured a major contract that will see it supply over half of the 5G base stations for telco China Mobile between 2023 and 2024. In total, Huawei has won 52 percent of China Mobile's 5G base station work, as part of the largest portion of the contracts put out for tender this year, according to Yicai Global.

How many 5G base stations are there in 2024?

"Accumulatively, there were over 2.4 million 5G base stations put into use [at the end of 2024]. We have built the world's first large-scale commercial 5G-A network, with RedCap covering all cities nationwide and gigabit broadband covering 480 million households," said China Mobile in its annual report.

Who won 5G wireless network equipment centralized procurement contract?

Huawei has won a \$574 million (4.1 billion yuan) 5G wireless network equipment centralized procurement contract. This contract by China Mobile will be carried out from 2023 to 2024. According to the information, this round of centralized procurement is divided into two projects - 2.6GHz/4.9GHz and 700M.
