

Does Brussels have more 5G base stations or more communications

Overview

Does Brussels have 5G?

Brussels' 5G availability averages just 36%, significantly trailing behind other major European capitals in high-speed connectivity. Brussels is trailing behind other major European cities in the rollout and performance of 5G networks, according to a new report by telecommunications analytics firm MedUX.

Does Belgium have a good 5G QoE performance?

MedUX, a global leader in internet QoE testing and monitoring, unveils its latest findings on 5G performance in the Belgian capital and across Europe. Our Brussels 5G QoE Benchmarking report reveals two very good winners and a strong contender.

Why does Brussels lag behind other European cities in 5G quality?

Despite being the political heart of Europe, Brussels lags behind other major European cities in 5G quality. Several regulatory and market challenges might have slowed down its 5G deployment:.

Does Brussels have the weakest 5G experience in Europe?

MedUX's broader European analysis, set to be published in February, suggests that Brussels has one of the weakest 5G experiences in Europe. The EU aims for uninterrupted 5G coverage in all urban areas by 2025, but Brussels is far from meeting this target.
