

**GETON CONTAINERS**

# **Domestic supply of foreign base station communication equipment**

## Overview

---

How big is the 5G base station equipment market?

The 5G base station equipment market is estimated to reach US\$52.733 billion by 2030 from US\$29.865 billion in 2025, growing at a CAGR of 12.04%. 5G base stations form the backbone of next-generation wireless networks, enabling enhanced bandwidth, ultra-low latency, and broader coverage to support rising connectivity demands.

Why should India invest in base station equipment?

Government policies, such as India's 2030 5G roadmap, and global urbanization trends will continue to drive investments in base station equipment. This infrastructure is critical to meeting the dual demands of expanding connectivity and supporting next-gen applications like IoT and smart cities.

How many base stations does Russia need a year?

According to him, Russian operators annually need about 60-80 thousand new base stations. Demand will increase when the deployment of 5G networks begins in Russia, he does not exclude. Read more in the exclusive Izvestia article:.

Who makes cellular base stations in Russia?

For example, Yadro has opened the first production line in Russia for electronic modules for cellular base stations, Izvestia was told by X Holding, which it belongs to. This is one of the key production elements required for a full-fledged large-scale production of base stations, which is scheduled for the end of this year.
