

East Africa Container Temperature Controlled Freezer Generator

Overview

What is a containerised generator?

Our Containerised Generators deliver robust, high-capacity power from 300–3,000 kVA in secure, weather-resistant enclosures. Designed for challenging environments and critical applications, they offer noise reduction, easy transport, and bespoke configuration to meet your site's exact needs.

What types of transport refrigeration & freezer containers do you offer?

We offer a variety of transport refrigeration and freezer containers, including Dual Reefer Systems, Explosion-Proof Reefers, Tank Container Reefers, Offshore Reefers, Blast Freezers, Deep Storage Freezers, Quick Thaw Containers, Expandable Containers, DNV Refrigerated Containers, and more.

What is a container refrigeration unit?

Our container refrigeration units are built to the highest standards and made to hold up under tough conditions, making them ideal for military and government use as well as for commercial industries. We provide customers customized options for transport refrigeration when standard products fail to get the job done.

Why should you choose a containerised generator?

Containerised Generators are trusted across industries where reliability and resilience are non-negotiable, such as Healthcare and Rail infrastructure. Every unit can be tailored to your project with options for fuel type, noise attenuation, and space-saving layout.

East Africa Container Temperature Controlled Freezer Generator

KONTENA East Africa

Refrigerated Containers Reefer containers have the same general dimensions as that of dry cargo containers of the same size. Special super-freeze reefers can keep goods ...
