

# **Environmental Protection Project Using Baku Solar Container Low-Pressure Type**

## Overview

---

What is Azerbaijan's Energy Transition Project?

The objective of the project is to support Azerbaijan's energy transition through expansion of renewable electricity generation.

How can Azerbaijan improve energy security?

Diversifying and improving the energy capacity of the country to ensure energy security. Azerbaijan has significant untapped renewable energy potential, as it is a relatively sunny and windy country, and it also has sizeable hydro, biomass and geothermal resources.

What is a solar PV project in Azerbaijan?

The Project involves financing the development, construction, operation, and maintenance of two solar photovoltaic (PV) power plants in Azerbaijan – (i) 315 MWac Banka solar PV power plant (Banka Solar); and (ii) 445 MWac Bilasuvar solar PV power plant (Bilasuvur Solar). Applicable Policy and Categorization.

What is environmental protection in Azerbaijan?

Environmental protection in Azerbaijan is governed by the Law on Environment Protection (1999), which establishes the main environmental protection principles and the rights and obligations of the state, public associations and citizens.

## Environmental Protection Project Using Baku Solar Container Low-P

### Baki Limani

The integration of solar and BESS technology brings unprecedented energy management capabilities, reinforcing our commitment to both economic and environmental stewardship," ...
