

GETON CONTAINERS

Explosion-proof battery cabinet base station

Overview

What is a lithium-ion battery storage cabinet?

DENIOS presents its Energy Storage Cabinet specifically crafted for Lithium-Ion batteries, ensuring secure containment and charging. These meticulously designed lithium-ion battery storage containers guarantee comprehensive safeguarding, including 90-minute fire resistance against external sources.

What are cellblock battery storage cabinets?

CellBlock Battery Storage Cabinets are a superior solution for the safe storage of lithium-ion batteries and devices containing them. Our practical, durable cabinets are manufactured from aluminum, and lined with CellBlock's Fire Containment Panels.

Are battery charging cabinets fireproof?

Modern lithium batteries are prone to overheating and even catching fire due to overcharging, unstable currents, or other reasons during charging. Battery charging safety cabinets, with their fireproof and explosion-proof designs, effectively prevent these accidents.

What is an explosion-proof cabinet?

The explosion-proof cabinet is specially designed to effectively control the risk of thermal runaway of lithium batteries. The cabinet is made of double-layer steel plate structure, and the middle is filled with fireproof insulation material, which can withstand high temperature impact.
