

# **German non-standard solar panel manufacturer**

## Overview

---

Who makes solar panels in Germany?

Based in Bonn, SolarWorld is one of the oldest and most respected solar panel manufacturers in Germany. Established in 1988, SolarWorld has made significant contributions to the solar industry. It is recognized for its quality products and rigorous manufacturing standards.

Does sonnenstromfabrik make solar panels?

Sonnenstromfabrik produces both its own products under its own brand name but also third-party modules, which it makes on behalf of other solar manufacturers. Our product range comprises framed and frameless glass/glass modules, framed standard modules of glass-foil design and special modules such as off-grid modules and roof-integrated modules.

Why are solar panels certified in Germany?

As such, certification is a significant aspect of the solar panel market in Germany. The German market, as one of the pioneers and leaders in the solar industry, has established stringent certification standards to ensure the performance, durability, and safety of the solar panels being used in the country.

How big is Germany's solar panel capacity in 2022?

According to the German Federal Ministry for Economic Affairs and Energy, Germany's installed solar panel capacity has been growing rapidly in the past few years. In 2022, Germany's installed solar panel capacity will reach 59.5 GW. Part of the collection of this energy comes from some solar panel manufacturers in Germany.
