

# **How many manufacturers are there for wind power base stations in Slovenia**

## Overview

---

How many wind turbines are there in Slovenia?

A solar power plant with a capacity of 6MW opened in 2023 at Brežice, linked to the hydro power plant. Slovenia had just 2 wind turbines in 2022. Onshore wind energy potential for Slovenia is typical of central and eastern Europe.

Who makes the most wind energy in the EU?

The majority of wind installations deployed in the EU are provided by the domestic wind manufacturing sector, with the main European manufacturers accounting for 85 % of the EU wind energy market (94 % in the offshore sector).

What is wind power?

The Wind Power is a comprehensive database of detailed raw statistics on the rapidly growing sphere of wind energy and its supporting markets. It contains data about wind farms, turbines, manufacturers, developers, operators, owners and also pictures and cartographical data.

What is the 'Europe wind farms database'?

Dublin, July 16, 2025 (GLOBE NEWSWIRE) -- The "Europe Wind Farms Database" database has been added to ResearchAndMarkets.com's offering. This product is a database of wind farms in Europe and includes 27621 entries (in 40 countries). Its content represents 243,5 GW onshore and 502,6 GW offshore.
