How much does solar panels cost in Dublin

Overview

How much does a solar PV system cost in Ireland?

The average cost of a solar PV system in Ireland in 2025 will be approximately €7,800 with the SEAI grant, or €9,600 without it. This is based on getting 13 – 14 solar panels, which is about average in Ireland. This includes the cost of the components, such as the solar panels and inverter. It also includes the installation costs and wiring.

Are solar panels a good investment in Ireland?

With rising energy costs and generous SEAI grants available, solar panels have become one of the smartest long-term investments for Irish homes and small businesses. In this guide, we'll break down the average cost of solar panels in Ireland, what influences the price, available grants, and how quickly you can expect to make your money back.

How much does solar cost in Dublin?

One of the main reasons homeowners search to see how much does solar cost in Dublin is the strong support available through the SEAI grant. The scheme offers €800 per kWp installed (up to €1,800) but be careful, the additional €600 bonus for homes that include a battery is no longer available.

What type of solar panels are available in Ireland?

Panel Type and Quality: Solar panels vary in efficiency and durability. In Ireland, photovoltaic (PV) panels are the most popular choice, with options like monocrystalline panels offering higher efficiency and a longer lifespan. These may cost a bit more initially but can deliver better long-term savings.
