

# **Huawei builds base station communication equipment**

## Overview

---

How many 5G base stations did Huawei secure?

Huawei is estimated to have secured 45,426 5G base stations worth an estimated 4.1 billion yuan (US\$574 million). Huawei wasn't the only Chinese vendor to win a sizeable chunk of the tender, with ZTE the second-largest winner with around 26 percent of the contract, equivalent to 23,227 5G base stations.

Which base station antenna vendors are the best?

As a leading market intelligence firm in the global information and communications technology (ICT) sector, ABI Research conducted a comprehensive assessment of 15 base station antenna vendors based on three dimensions: Overall, Innovation, and Implementation. Huawei is ranked first in all three areas.

What is the global base station antenna market research report 2023?

[Shenzhen, China, December 17, 2024] In their latest report, the global technology market intelligence firm ABI Research released its 2023 global base station antenna market research report titled "Passive Cellular Antenna Competitive Analysis".

Is Huawei a good company?

Huawei is ranked first in all three areas. This achievement highlights Huawei's outstanding performance and continuous innovation in the global communications technology field. Overall Leader: Huawei earns the title of industry overall leader with a high score of 86.4, topping the world in market share, innovation, and application capabilities.
