

# Huawei large-capacity energy storage charging pile

## Overview

---

How many Huawei Supercharge charging piles will be installed in China?

(Yicai) Dec. 8 -- Huawei Technologies will join hands with its clients and business partners to install over 100,000 Huawei SuperCharge charging piles along major roads in China next year. The project will touch more than 340 Chinese cities, Hou Jinlong, president of Huawei Digital Power Technology, said during an industry forum yesterday.

How many charging stalls does Huawei have?

The station has 18 x 1.44MW charging stalls, 108 x 600kW, and 72 x 720kW liquid-cooled charging stalls. Huawei has employed 1MW photovoltaic carports and two 215kW wind-liquid smart cooling energy storage systems. In April, Huawei launched the first-ever 2400A fully liquid-cooled megawatt-class charging pile.

What happened at the Huawei megawatt supercharging high-quality development summit?

At the Huawei Megawatt Supercharging High-Quality Development Summit, held in Sichuan, China, Huawei shared its latest technological achievements for electric vehicles and renewable energy designed for the megawatt charging ecosystem. Huawei took this opportunity to officially unveil the first 100MW heavy-duty truck supercharging station.

What is a Huawei-made charging station?

Image of a Huawei-made charging station. Huawei China's Huawei has officially launched the world's first 100 MW-class supercharging facility for electric trucks, demonstrating a new era of high-power, ultra-fast charging technology.
