

Huawei solar container battery in Auckland New Zealand

Overview

Why do New Zealand homes need battery storage?

In most New Zealand homes, a large proportion of the energy produced by solar panels is sent back to the grid because it's generated when it's not needed, i.e., the middle of the day. However, adding home battery storage to a new or existing solar power system allows you to store your unused energy.

What makes Huawei a smart solar power provider?

Huawei offers leading Smart PV solutions, harnessing more than 30 years of expertise in digital information technology. By integrating AI and Cloud, Huawei further incorporates many of the latest ICT technologies with PV for optimal power generation, making solar power generation highly efficient, Safe & Reliable.
