

Illegal use of solar container communication stations for wind power

Overview

Do Chinese solar power inverters have undocumented communication devices?

However, undocumented communication devices have reportedly been found in some Chinese solar power inverters. And over the past nine months, such devices—including cellular radios—have also been found in some batteries from Chinese suppliers.

Do Chinese solar power inverters have a firewall?

While such inverters allow remote access for updates and maintenance, utility companies usually install firewalls to block direct communication back to China. However, undocumented communication devices have reportedly been found in some Chinese solar power inverters.

Are US utilities preparing to ban Chinese inverters?

U.S. utilities are preparing to ban procurement of inverters from Chinese firms, sources told Reuters, or minimize the use of Chinese inverters—like Florida Power & Light Company.
