

Installation of solar cell module equipment for solar container communication station

Overview

What is a mobile solar PV container?

High-efficiency Mobile Solar PV Container with foldable solar panels, advanced lithium battery storage (100-500kWh) and smart energy management. Ideal for remote areas, emergency rescue and commercial applications. Fast deployment in all climates.

What is the standard packing box for crystalline silicon solar modules?

FLOW CHART OF STANDARD BOX PACKING – 1 & 2 At Citizen Solar the standard packing -1 and standard packing -2 of crystalline silicon solar modules consists of a wooden pallet and a packing box as shown in figures below.

How are crystalline silicon solar modules packed?

At Citizen Solar the standard packing -1 and standard packing -2 of crystalline silicon solar modules consists of a wooden pallet and a packing box as shown in figures below. 15.3. SPECIAL BOX PACKING.

How to pack a solar module?

SOLAR MODULE PACKING AT CITIZEN SOLAR PVT LTD 15.1. GENERAL Every alternate module is protected by corner protectors as shown below, this helps in protecting the module edges from any scratches on the AL frame. Inside the box each module is placed in vertically. Put the module into the carton from one side with protector on four corners.
