

Integrated sensor solar light 90 watts

Overview

Which solar panel is used for LED street light 90W?

We use reliable solar panel for our LED solar street light 90W with a high conversion rate from solar energy to electric energy. The battery is LiFePO4 lithium iron phosphate type, it has fast charging time and long lifespan with over-charged and over-discharged protection.

What is a 90W solar street light?

The 90W all in one solar street light built-in 54Ah high capacity 12.8V lithium iron phosphate battery which enhanced safety, strong thermal stability, tolerance to abuse, green, non-toxic, non-polluting, high current rating and 2000 cycle life.

How much power does a solar light use?

Power: 30W/60W/90W/120W. ☀ All in one design. The solar panel, lighting source and battery are integrated in one light. More convenient for transportation and installation. 🌙 Switched by ambient light, turned off at dusk and turned at dawn automatically. Work smartly with motion sensor detector.

What is led street light 90W used for?

Our LED solar street light 90W is widely used in street lighting, sidewalk lighting, roadway lighting, fence lighting, pathway lighting, campus lighting, park lighting, garden lighting, ramp lighting, boat dock lighting, remote area lighting, farm & ranch lighting, etc. Why choose our LED solar street light 90W?

Integrated sensor solar light 90 watts
