

Inverter 12v1 5kw

Overview

What is a 12V inverter?

A 12V inverter is a device that converts 12V DC electric from your leisure batteries into the standardised AC current in your country of origin (120AC for the states, 240AC for the UK). It integrates into the electrical setup inside your campervan.

How much power does a solar inverter use?

Very nice, quiet inverter. It works hybrid, i.e. it shares power from the grid, solar panels and batteries at the same time. For its life - ready to give electricity - it uses 30 W. There is no communication, but I knew that.

What is HF series solar charge inverter?

HF Series is a new hybrid solar charge inverter, which integrates PV charge & Grid (Generator) charge with AC sine wave output. Adopting DPS control algorithm, getting higher response speed, higher reliability, and higher industrial standard. 1.
