

Japanese forklift solar container battery factory

Overview

Who makes a battery for a forklift?

EKT is a lithium-ion battery specialist, we manufacture battery solutions for all models of forklifts, offering customization to suit your forklift, application and budget. Custom options we offer include battery pack integration, battery management systems, and more.

Who is the best battery manufacturer in Japan?

Mitsunami is one of the top 10 battery manufacturers in Japan which was established in 1959 and has 236.72 million yen in capital. They started their business in selling vacuum tubes, before producing electronic parts for devices such as capacitors, resistors, connectors, etc.

Where are Furukawa batteries made?

Furukawa Battery started their business in 1950 and is located in Yokohama, Japan. They produce batteries for the automotive industry, commonly used in cars all across Asia. Their main product is lead-acid batteries, lithium-ion batteries, and energy storage systems.

What type of battery does a forklift use?

This forklift incorporates two types of batteries, namely a lithium-ion battery and a lead-acid battery, for the first time in a forklift. It provides extended operations and long life by taking advantage of the respective batteries. This forklift reuses regenerative energy from speed reduction to charge the lithium battery.
