

Large mobile energy storage vehicle in Sao Paulo Brazil

Overview

Will Brazil conduct the first energy storage auction?

Brazil is set to conduct the country's first-ever energy storage auction for adding batteries and storage systems to the national power grid.

Will Brazil's first electricity auction drive \$450m investment?

Brazil is set to conduct its first auction for adding batteries and storage systems to the national power grid, as reported by Reuters. The auction, to take place in June 2025, will include 300MW energy capacity purchase that could drive an estimated \$450m in investments from winning bidders, according to consultants Oliver Wyman.

What is power2drive South America?

The concurrently held Power2Drive South America expands the thematic range to include mobile energy storage, electric vehicles, and charging infrastructure, making an important contribution to sustainable mobility.

What is Brazil's first large-scale battery?

Brazil's transmission system operator, ISA CTEEP, has announced that the country's first large-scale battery has been connected to the grid at one of its electrical substations in Sao Paulo. The company said the battery spans approximately 5,000 square meters and relies on 180 lithium battery modules made by an undisclosed manufacturer in China.
