

Madrid off-grid solar power generation system

Overview

What is Edisun power Europe doing in Madrid?

special newsletter PV for farmers (monthly) Edisun Power Europe is building three large solar parks near Madrid, boosting solar energy capacity by nearly one gigawatt to meet high local demand.

What is the demand for solar power in Spain?

The three projects have grid access, connection rights granted, an environmental licence (DIA) and an interim administrative permit (AAP). The Madrid region has the highest energy consumption in Spain. So, the demand for solar power is therefore huge.

Does Spain need solar power?

The Madrid region has the highest energy consumption in Spain. So, the demand for solar power is therefore huge. Swiss project developer Edisun Power Europe is now developing three large solar parks near the capital, with almost one gigawatt of solar power.

How many solar parks are there in Fuencarral?

Swiss project developer Edisun Power Europe is now developing three large solar parks near the capital, with almost one gigawatt of solar power. The Fuencarral grouping has a total of 941 MW and consists of three large solar parks: Pradillos with 390 MW, Fuencarral with 291 MW and Loeches with 260 MW.
