

Modern energy storage solutions in Rotterdam the Netherlands

Overview

Who is energy storage NL?

Energy Storage NL is the subject matter expert on energy storage and conversion technology. We promote awareness and knowledge about the current and future role for energy storage and conversion in the energy system. Energy Storage NL represents the broad energy storage sector towards governments and external stakeholders.

Why should the Netherlands accelerate the energy transition?

The Netherlands must accelerate so as not to miss opportunities. Energy storage is the missing link in the energy transition. Without large-scale deployment of batteries, heat buffers and hydrogen storage, the Netherlands risks falling behind in Europe and becoming more dependent on foreign players.

Is this the first 4-hour battery energy storage system in the world?

From ESS News Rotterdam-based S4 Energy has commissioned a 10 MW/40 MWh battery energy storage system (BESS) in Rilland, Netherlands, marking what the company claims is the first 4-hour duration system of its kind in the country.

Is the Dutch grid under strain?

The project's 4-hour discharge capability distinguishes it from shorter-duration systems commonly used for frequency regulation. S4 Energy's CCO, Dominique Becker Hoff, stated that the Dutch grid is under strain, citing growing demand and a mismatch between renewable energy availability and demand.

Modern energy storage solutions in Rotterdam the Netherlands

[First operational 4-hour Battery Energy ...](#)

S4 Energy, Rotterdam-based leader in European grid-scale storage, has operationalized its state-of-the-art 4-hour Battery Energy Storage System (BESS), the first of its kind in the Netherlands.
