

# Mw energy storage container price

## Overview

---

What is mw-level container energy storage system?

An MW-level container energy storage system consists of the battery system and energy conversion system. The battery system contains advanced lithium iron phosphate modules, battery management system, and DC short circuit protection and circuit isolation fuse switch, all centrally installed in the container.

How much does a 1MWh battery energy storage system cost?

For a 1MWh battery energy storage system, Energetech Solar offers a system with a price of \$438,000 per unit for a 500V - 800V system designed for peak shaving applications. There are also quantity discounts available, with the price dropping to \$434,350 for purchases of 3 - 9 units and to \$431,000 for purchases of 10 or more units.

What is the 100 MW energy storage system?

The 100 MW system is an energy storage installation that will provide critical capacity to meet local reliability needs in the area, while helping California meet its environmental goals.
