

New solar container outdoor power in New York USA

Overview

Does New York have a solar facility?

1 Governor Hochul Announces Siting Approval of New York's Largest Solar Facility to Date, governor.ny.gov. 2 New York State Has Achieved Major Solar Milestone A Year Early, NYSERDA, October 2024. 3 Greenhouse Gas Equivalencies Calculator, US EPA. 4 Data is as of December 31, 2024.

Why should you choose a solar storage container?

Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy. Lower energy/maintenance costs ensure operational savings.

Why should you choose a modular solar power container?

Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy.

Will cider be New York's largest solar farm?

Cider, which broke ground on early construction activities in late 2024, was the first renewable energy project of its kind to receive a siting permit from the state's Office of Renewable Energy Siting and Transmission ("ORES") under Section 94-c rules and, upon completion in late 2026, will be New York's largest solar farm to date.
