

Nordic solar container lithium battery replacement station cabinet system

Overview

Who is Nordic batteries?

At Nordic Batteries we assemble and manufacture customized battery- and energy storage solutions to drive your business forward. Based on our market and technological expertise we deliver solutions powering the green shift for key industries. High energy battery module produced in Norway from norwegian battery cells.

What is all-in-one container energy storage system?

Container Energy Storage System (CESS) is a modular and scalable energy storage solution that utilizes containerized lithium-ion batteries to store and supply electricity.

Why should you choose a modular solar power container?

Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy.
