

Off-grid solar container 200kWh government procurement

Overview

Why should you choose a modular solar power container?

Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy.

Can PV plus storage be deployed cost-effectively at grid-connected sites?

Considerations for Implementing PV Plus Storage Systems at Federal Buildings and Campuses – Recent declines in lithium-ion battery costs, along with changes in net metering policies and utility rate structures, have provided opportunities for PV plus storage to be deployed cost-effectively at grid-connected sites.

Why should you choose a solar storage container?

Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy. Lower energy/maintenance costs ensure operational savings.

Off-grid solar container 200kWh government procurement

Intech Energy Container

The Intech Energy Container -- or ECON -- is a modular, pre-configured off-grid power solution. It combines solar PV, battery storage, inverters, and energy management in a rugged container.
