

Outdoor solar energy without grid intelligent on-site energy

Overview

Does SmartEnergy support off-grid homes?

SmartEnergy supports grid-tied and off-grid homes alike. Discover off-grid energy solutions with solar panels, battery storage, and hybrid setups to gain full energy independence and avoid outages.

Are off-grid power systems right for You?

Whether you're dreaming of remote living or just want more energy independence, off-grid power systems offer a compelling alternative to traditional utility electricity. Thanks to advances in solar technology, battery storage, and hybrid setups, it's more practical than ever to run your home entirely on your own terms.

How much does an off-grid home cost?

A fully off-grid home setup can range from \$25,000 to \$70,000+, but that includes long-term independence and virtually no electricity bills moving forward. You may also be eligible for: It's not for everyone — but for the right homeowner, off-grid energy can be both liberating and financially smart.
