

Panama solar container communication station Uninterruptible Power Supply Installation Process

Overview

What is the scope of activities for installing uninterrupted power supply (UPS)?

1.1. Scope of Activities This scope defines the minimum standards for installing Uninterrupted Power Supply (UPS). The UPS, Batteries, I/O Panel with integrated PDU, and all the internal power/control cabling will be provided and installed.

What is a method statement for uninterruptible power supply?

This Method Statement applies to all installations of Uninterruptible Power Supply at Project electrical works. Manpower and equipment shall be organized to meet the schedule as per the approved construction program. 3. Definition 3.1. Abbreviation UPS - Uninterruptible Power Supply QAQC - Quality Assurance Quality Control MS - Method Statement.

How will the battery disconnection panel be connected to the ups?

The battery disconnection panel will be connected to the UPS. Also, a control cable will be laid from the UPS to the Battery disconnection panel. All battery cabling will be done in dedicated cable trays installed on uni-strut channel supports as shown in the approved drawings.
