

# Portable power station for tv in London

## Overview

---

Which portable power station can run a TV?

Nearly all portable power stations can run a TV. So, we had to look at more when deciding which portable power station to recommend. Our tests included: While we recommend the Bluetti EB55 as the best overall portable power station to power a TV, you might have differing needs, making another model more appropriate.

What can a smart portable station do for You?

Keep your appliances safe during sudden power outages with a smart portable station. With options up to 3600Wh, they're a great alternative to generators. From appliances and TVs to lights and your laptop, you can continue using everything even when there are power cuts in your neighbourhood.

What is the best portable power station?

If you want the best all-round portable power station, the EcoFlow River 2 Max is our pick, as it has smart features, a long-lasting battery, and fast charging. Another EcoFlow option we recommend is the River 3, a minimalist model that delivers essential power in a lighter package. Need serious muscle for heavy-duty equipment or home power backup?

.

Are heavy-duty power stations 'portable'?

It's also worth knowing that there are models that pack in far larger batteries and more power for a higher price and more weight – those heavy-duty stations can weigh more like 45kg and have wheels for moving them around, so they don't feel quite as “portable” to us!
