

GETON CONTAINERS

Portable solar container system in Haiti

Overview

Can solar energy be used in Haiti?

Solar energy offers interesting prospects in Haiti, by offering energy self-sufficiency to the most isolated cities, in the absence of a power grid. The country's location in the tropics gives it very strong solar energy potential. It is believed solar energy will play a fundamental role in access to electricity over the next 10 to 15 years.

Why should you choose a modular solar power container?

Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy.

Why should you choose a solar storage container?

Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy. Lower energy/maintenance costs ensure operational savings.

Where are solar power plants made?

Headquartered in Shanghai with 50,000+ production bases across Jiangsu, Zhejiang, and Guangzhou, the company employs 1,000+ professionals, including 20+ engineers driving energy storage technology. ISO/TUV/CE-certified units deliver rapid-deploy solar power for off-grid, emergency, and mobile applications, reducing emissions by 70% vs diesel.
