

Pvb double glass module manufacturer

Overview

What is a glass-glass PV module?

Glass-Glass PV Module In the past and currently, the standard photovoltaic module has been manufactured using 3.2 -4mm glass on the front and a polymer-based insulating back she. ViaSolis is an international manufacturer of PV glass and provider of solar energy solutions. The company operates one of the most advanced production facilities in EU.

What is a dual glass PV module?

The dual glass PV module is a kind of special glass that can be used to generate electricity by solar radiation. It is composed of low-iron glass, solar cells, film, back glass, and special metal wires. It seals the solar cell through a film between a piece of low-iron glass and a back glass, which is the most innovative high-tech for construction.

What is a double glass module?

Double glass module: the front and back two pieces of glass + photovoltaic cells are compounded by encapsulation film. Traditional double glass module package: EVA+EVA, EVA+POE, POE+POE. Jiaxing Fuying double glass module package: PVB+PVB.

Why do we ship PV modules?

We ship reliable and advanced PV modules by virtue of leading modern intelligent manufacturing. tap the potential of every ray of sunshine, and illuminate every moment of life for a better tomorrow. Three national enterprise technology centers Together to Win

Pvb double glass module manufacturer

[Double Glass Module Manufacturer. PV Solar Panels Factory](#)

We are China double glass modules manufacturer and custom PV solar panels factory, The company is committed to building a composite functional film, PVB double glass photovoltaic ...
