

San Jose Photovoltaic Containerized Three-Phase Project Quotation

Overview

What is a solar quotation system?

The solar quotation system includes a straightforward customer relationship management (CRM) system that perfectly meets the needs of solar panel companies. Overbuilt systems can often complicate the process rather than streamline it.

How does Seto calculate PV system cost?

Unlike most PV cost studies that report values solely in dollars per watt, SETO's PV system cost benchmark reports values using intrinsic units for each component. For example, the cost of a mounting structure is given in dollars per square meter of modules supported by that structure.

What is a solar quotation form?

Solar Quotation Form: This form enables gathering essential data from clients about their solar system needs. It is fully customizable using a user-friendly drag-and-drop editor. Simple Solar CRM: Once client information is submitted through the quotation form, it is integrated into the Solar CRM system.

What is the representative commercial PV system for 2024?

The representative commercial PV system for 2024 is an agrivoltaics system (APV) designed for land that is also used for grazing sheep. The system has a power rating of 3 MW dc (the sum of the system's module ratings). Each module has an area (with frame) of 2.57 m² and a rated power of 530 watts, corresponding to an efficiency of 20.6%.
