

# **Singapore Communications 5g Base Station**

## Overview

---

How many maritime 5G base stations are there in Singapore?

MPA said five Maritime 5G base stations have been installed and operationalised as of 2024. Up to seven more base stations will be operationalised by 2025 to complete Maritime 5G coverage in all Singapore port's major fairways, anchorages, terminals and boarding grounds.

Does Singapore have 5G?

Singapore has positioned itself as a global leader in 5G deployment, with comprehensive coverage across the island nation. As one of the first countries to achieve nationwide standalone 5G coverage, Singapore offers some of the world's fastest and most reliable 5G networks.

How will Singapore's maritime 5G network improve connectivity?

"With the enhancement of coverage of the Maritime 5G network, users of the Singapore port will experience stronger and more stable connectivity. The enhanced coverage is also expected to unlock new 5G-enabled maritime services and innovations," it said on its website.

Is Singtel a 5G telco in Singapore?

Enables wider, deeper coverage islandwide for all 5G customers Singapore, 07 February 2025 – Singtel today announced that it is the first telco in Singapore to deploy 700 MHz spectrum, further boosting its 5G coverage nationwide.
