# **Solar glass smart assembled sun room**

## Overview

---

What is Solar Smart glass?

Solar Smart Glass sets the standard in solar control glass. Manual and automatic tuning and variable / dimmable functionality for precise, unrivalled control of solar glare and heat. Made-to-order panels featuring Suspended Particle Device (SPD) film between 2 or more sheets of glass.

How does Solar Smart glass work?

It can be manually or automatically “tuned” to precisely control the amount of light, glare and heat passing through a window. Solar Smart Glass sets the standard in solar control glass.

What is solar control smart glass?

Delivering made-to-order switchable glass solutions for more than 20 years. spaces that adapt to users' needs at the flick of a switch. Solar control smart glass controls solar glare and reduces the thermal transmittance through a glass façade, directly cutting down on associated HVAC costs.

How many Watts Does a SmartGlass Solar System use?

9.5mm, 11.5mm or 13.5mm, and more available. Less than 10 seconds at room temperature. Whether on or off, our Solar product shields 99.5% of UV light. Driving voltage 110vAC. Power approximately 12 Watt/m sq. Smartglass provided the ideal solution – excellent quality and perfect privacy at the flip of a switch.

## Solar glass smart assembled sun room

### [Photovoltaic System for a Sunroom](#)

A sunroom is a modern architectural design that not only enhances the comfort of a home but also provides an ideal location to fully utilize solar energy. Recently, we completed an innovative photovoltaic ...
