

Solar power generation How long is the warranty period for solar panels

Overview

How long is a solar panel warranty?

Solar panel warranties vary depending on the manufacturer, but in the solar industry, a 10-year product warranty and a 25-year performance warranty are typically considered the minimum standard. However, some manufacturers provide a 25-year product warranty and extend the performance warranty to 30 years. How Much Does a Solar Panel Warranty Cost?

.

Why do you need a solar panel warranty?

The less solar power your system produces, the more your home may need to draw from the utility company, which eats into your savings. A good solar panel warranty ensures your solar panels maintain a certain level of performance throughout the years, protecting your expected return on investment.

What is a solar contractor warranty?

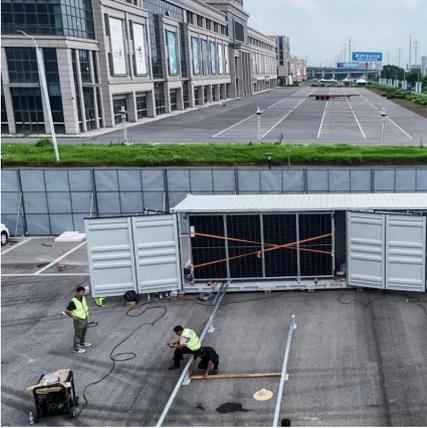

Solar contractor warranties are essential to your solar energy system's overall protection. These warranties, provided by the installer, generally cover workmanship and installation issues. They ensure the solar panels are correctly installed, and the system operates as intended. The duration of contractor warranties can vary.

Are solar panels backed by manufacturer warranties?

Homeowners can trust that their solar system components are backed by the manufacturer's commitment to quality and longevity. As solar panels are a substantial investment, understanding and leveraging manufacturer warranties contribute significantly to a homeowner's confidence in the durability and reliability of their solar installation.
