# **Solar power station energy storage equipment warranty period**

## Overview

---

Does the warranty model for energy storage systems keep pace?

Inflexible and complex, the warranty model for energy storage systems has failed to keep pace with rapid market growth, the authors argue. This is an extract of a feature article that originally appeared in Vol.41 of PV Tech Power, Solar Media's quarterly journal covering the solar and storage industries.

What is a solar panel warranty?

A solar panel warranty is the manufacturer's guarantee to cover defective materials or workmanship in the manufacture of the Panel. It is important that your panels' product warranty is at least 10 years. The warranty is provided by the manufacturer, not the solar installation company.

What is a battery energy storage system (BESS) warranty?

As challenging as warranties are for battery energy storage system (BESS) owners and operators, it is possible for there to be more clarity. Look no further than how the automotive industry handles electric vehicle warranties. They are simple and flexible, typically covering time (usually eight years) and mileage (usually 100,000 miles).

What voids a battery warranty?

1. End-of-Life SoH Warranty: Promises a specific SoH (typically 70-80%) by the end of the warranty period if the battery is used within the – often narrow – operating conditions laid out in the warranty contract. Exceeding these conditions, even due to issues such as sensor errors or control system malfunctions, can void the warranty. 2.
