Capacitors

Replacing Start Capacitors and Run Capacitors Inside A Pump Control Box
Degraded Start Capacitor Performance and Risks Over Time and Use
Capacitor Replacement
Changing the capacitor is easy and can be done by the user. You MUST disconnect the power source before replacing the capacitor!! This includes shutting off the 2 breakers (for 2 hot lines) in the power panel and any power switches for your pump system. Most control boxes are made for easy capacitor replacement. Simply unplug the wire terminals con See more on tuhorse Mulholland's Augusta House of Pancakes
