

GETON CONTAINERS

South Africa Mobile Energy Storage Container 20MWh

Overview

Where is Eskom putting a 20 mw/100 MWh battery energy storage system?

South African utility Eskom has switched on a 20 MW/100 MWh battery energy storage system (BESS) in Worcester, Western Cape province. It has been billed as the largest such project in all of Africa.

Why did Eskom switch to a 20 mw/100 MWh Hex battery energy storage system?

South Africa's public utility, Eskom, has switched on a 20 MW/100 MWh Hex battery energy storage system (BESS) in Worcester, Western Cape province, to mitigate the challenge of load shedding. South African utility Eskom has switched on a 20 MW/100 MWh battery energy storage system (BESS) in Worcester, Western Cape province.

Where will the battery energy storage project be implemented?

The Project will be implemented at approximately 17 sites, located within or adjacent to existing distribution substations of Eskom, across four provinces of South Africa. The Battery Energy Storage Project (Project) provides a solution to address both challenges.

Does South Africa have a battery storage tender programme?

South Africa is aiming to procure utility-scale battery storage with two tender programmes: its Battery Storage IPP Procurement Programme as well as hybrid battery storage and variable renewables projects through its Risk Mitigation IPP Procurement Programme.
