

Sri Lanka Solar solar container power supply system

Overview

What is warranty cover for solar panels & inverters in Sri Lanka?

Warranty cover by the service provider for mounting structure and wiring for 10 years. Vendors/service providers shall submit necessary test certificates from accredited laboratories and obtain the conformity certificate from Sri Lanka Sustainable Energy Authority for PV panels, inverters and DC Cables as appropriate.

How to get solar PV roof top installation in Sri Lanka?

Solar PV service providers (applicant company), having capacity to deliver the complete package of services including survey, design, supply of equipment/materials, installation & commissioning and post installation back up support must register at the Sri Lanka Sustainable Energy Authority to engage in Solar PV Roof Top installation in Sri Lanka.

What information should a Registered solar PV service provider provide?

Registered Solar PV service providers may be asked to update and/or provide additional information that may be required for determining the vendor's ability to participate in specific requests for proposals of major procurements, where additional qualification criteria specific to such projects would be required.

What is a 50 million credit line in Sri Lanka?

The credit line of US \$ 50 million established by the Government of Sri Lanka (GoSL) through a loan from the Asian Development Bank (ADB) provides the required financing on preferential terms.
